Syllabus: NCERTs

There is always a **confusion what to read and whether it is important to read NCERT**. So, let me clarify here. It is 100 percent important to read NCERTs. **You must read NCERTs not for the reason you are going to get few questions in Prelims, but to draw an outer boundary of your preparation.**

(For example, to read India, you need to draw first outer boundary of India, and then what fill inside is advanced India (advance Prelims). So here outer boundary is NCERTs.

100 percent you must do NCERTs. We must do 'ideal preparation,' i.e., we are not going to leave anything.
